

523-1000  
a place that's just right

There's a place that's just right  
There's a place where the men don't fight  
It's a place you may have never seen  
It's a place many have never been

There's a place that's spot on  
Where all around people can do no wrong  
It's a place where the lights shines through  
It's a place for me and for you

A place  
In a heart  
A thought  
A wish  
A place  
In a heart  
A song  
A kiss  
A place  
Just right  
Just right

Someday we'll make it there  
I'm so very sure
