And i must be dreaming

That's it
That's what's going on
Vivid colors
Something must be wrong
Breathing easy
All things in their place
And i must be dreaming

Winning goals
Tears and celebration
Sorrow's twin
From the soul's elation
Scan the heavens
All things in their place
And i must be dreaming

Holding hands
Fingers love entwining
Resting head
Together two defining
Present now
All things in their place
And i must be dreaming

I must be dreaming
I saw a shooting star
I gazed up at the milky way
Lying on my car
I am most at home in love
I have come so far
And i'm not dreaming
Im not dreaming
