Big old fail

That's a big old fail  
There's no wind and i raised the sail  
I got no bucket my boat to bail  
Now that's a big old fail

That's a big old fail  
I'm in the nowhere out of gas  
An hour gone and no one pass  
I wonder how long this shit will last  
Fail

That's a mighty whiff  
She said she'd be back in a jiff  
She left in quite a little tiff  
I guess i'll have to find a lift  
Whiff

That's a huge mistake  
I thought my love made her knees quake  
That she existed for my sake  
That all i had to do was take  
And then she told me to go jump in the lake  
Mistake

Fail, fail, whiff
