

360-1000  
Christmas

What does christmas mean to me  
There aren't presents, there is no tree  
There's only this feeling that my heart is free  
Free to extend good will toward men  
Free to hopeful believe that when  
We learn how to love again  
And that's what christmas means

What does christmas mean today  
It's not about the price we pay  
For gifts that cannot ever say  
How much love our hearts can hold  
That hatred is never true foretold  
For love resides in every soul  
And that's what christmas means

What does christmas mean to those  
Whose depth of sorrow no one knows  
And grace upon us their strength bestows  
As we bear witness to their pain  
And yet they carry us again  
The power of their love won't wane  
And that's what christmas means

What does christmas mean to you  
Is there something you can do  
Do you think the story's true  
About some people so divine  
They dwell in love of every kind  
It fills their heart, consumes their mind  
Maybe that's what christmas means
