

768-1000
Come and gone again

Another summer
Come and gone again
And golden light
Signals the end
Of midnights at the oasis
And a rocking boat
And just like that
We're drinking beer by moonlight
And just like that
I'm afraid
And i have no job
And i have no home
And i sit on the edge of the bridge
And think back
To another summer
Come and gone again
Come and gone again
