

## DAVID MAMET

the reason i like mamet, is the powers in the words (D, F#m)  
the crap they read on npr is really for the birds (Em, A)  
those self-involved pedantic pricks  
who cannot write for shit  
think emotive presentations  
make their boring words legit

the reason i like mamet, is the power's in the words  
the pompous morons on fox news  
have intellects like turds  
the teleprompter scrolls the things  
that they're allowed to say  
a three year old could understand  
and the sheeple must obey

the reason i like mamet is the power's in the words  
in the class of Langston Hughes  
and his dream deferred  
his eloquence and reparte float like spanish moss  
take a moment and enjoy  
glen gary and glen ross
