

340-1000
Down to the wire

It's coming down to the wire
It's going to be close in the end
It's almost a year on this journey
Only two more i must wend

It's coming down to the wire
December is the hardest month of all
Don't forget each night to take that breath
Resist the temptation to take that fall

It's coming down to the wire
Once the year starts all will feel new
Another one in the books
Two more feels like so few

It's coming down to the wire
My resolve remains true
Even as midnight arrives
I'll keep writing a tune or two
