

772-1000
For one last time

For one last time
But How many last times have there been
How many changes of mind
Don't worry, just be kind
And they won't see
How fickle you are
And you are just like me
Over and over
You say
This is the last time
But sure there's no crime
In going back on your word
For it's all just musings overheard
No one's keeping score
And if they are
What a bore
So when you say
For one last time
I smile
I pretend to hear
But no fear
I judge not
For fickle us is all we've got
And so for last time
I sing about you
But keep an ear wide
Maybe tomorrow
It will be
One more last time
