

725-1000  
Freezie Face

Out sledding, ten below  
Down the hill, zipping go  
Into the snowbank without a trace  
Emerge again, freezie face

Red and chapped, all frostbitten  
With LA I am smitten  
I am tired of this cold place  
Done and done with freezie face

New england is for the young and hearty  
It's time for this old dude to party  
So i will exit with a bit of grace  
Adios my little freezie face

Sunscreen is not my cup of tea  
I'm happiest in 90 degrees  
I'll find myself a little space  
Exit stage left from freezie face

I love you all, I wish you well  
Come visit and escape your hell  
So turn up the volume, crank the bass  
Goodbye goodbye old freezie face
