Gather on the shore

We gather on the shore
To wash away the grime
To bathe in the moonlight
Of our love sublime
We gather on the shore
To watch the sparkling sea
The rhythm of the waves
Help us let it be
We gather on the shore
When sorrow tears us wide
For the ocean saves us all
From the great divide
We gather on the shore
For it leaves us feeling whole
The sadness and the joy
Fill our empty bowl
We gather on the shore
And dance neath the stars
Away from all the clamor
Crashing waves drown out the cars
We gather on the shore
And wait upon the dawn
And wonder when the fog rolls in
Where has our lover gone
