

95-1000  
Guns and things

In America we like to play with our  
Guns and things  
Shooting off our mouths and pistols  
Oh the joy it brings  
Ain't it great that students at  
The university of T  
Can amble strapped into their class  
America's so free

In America we like to build  
Walls to keep you out  
Funny how freedom and democracy  
Is what you'll hear us tout  
But If we're being honest though  
That freedom's for the rich  
Not for the Immigrants and poor people  
Man ain't the truth a bitch

I tend to stay away from writing  
Self-righteous tunes like this  
But America is sliding at speed  
Into the abyss  
I love how we seem to think  
It cannot happen here  
That's what the germans in the 30s thought  
No one's immune i fear
