Hope it goes well

You voted your conscience
You voted your heart
In this election
You played your part
You elected a president
In one month he starts
Hope it goes well, america

He comes to the office
All twitter and rage
Clearly an infant
He ne'er acts his age
Incipient tyrant
From the pinochet page
Hope it goes well, america

The 1st amendment
To him is a lark
If you criticize him
He throws you to the sharks
This train's a rolling
U cannot disembark
Hope it goes well america

When he comes for your people
When you end up in jail
When you cry for your freedom
All to no avail
Maybe then you will realize
It's your coffin you nailed
Hope it goes well america
