I believe we are

Are we destined for deepest joy
Even when we feel despair
Are we filled with courage
Even if all we feel is fear
I believe we are
I believe we are

Are we in this together
Even when we think we're all alone
Can we love our brothers
For our sins all can atone
I believe we can
I believe we can

Are we loving creatures
Ready to embrace our foes
Will we live together
Where like the river everything flows
I believe we will
I believe we will

This is what i do believe
Despite the moments that i grieve
Someday our species a reprieve
We are
We can
We will
we
