I can't breath

I can't breath
Yes i know i have a cold
Yes i know i'm growing old
But when i'm short of breath
It's not my health to which i refer
It's in my head i'm pretty sure
I have too much that weighs me down
Too many worries on my brain
Sometimes it makes me feel insane
The things i have to do
To please you and you and you
And then heavy on my chest
Life sometimes feels like one big test
And then
I can't breath
I can't breath

It's not the fact that i am sick
I'll get over that right quick
It's all the fears and all the shame
It's trying to protect my name
From those who might say i'm no good
Were i to move away, i should
Relax
Relax
I've done my part
And still
I can't breath
I can't breath
Can you hear me gasping
gasping for life
