

868-1000
I hope its just gas

I hope its just gas
This pain in my side
Having trouble breathing
I must cofide
A fart would be lovely
The smell id abide
I hope its just gas i do

I hope its just gas
This ache in my chest
Im trying to look normal
Im trying my best
But the hurt is quite viscious
I must attest
I hope its just gas i do

I hope its just gas
Or reflux disease
I'm starting to falter
Im starting to wheeze
A fart would be lovely
It disappears in the breeze
I hope its just gas i do

So often now when the discomfort is alarming
I pass some big poops and the size is disarming
I know this song isnt quite charming

But i have a pain
And it wont seem to wane
An upper hand i cant gain
And i wish
Oh i wish

That its just gas
