

I KNOW MYSELF - BETTER THAN YOU DO

some people think, you can change your ways (C, Em, F, C)
a few months on the couch, gone are the dark days (C, Em, F, G)
But I know myself, a little better than most
after years of introspection, those claims are grandiose

(chorus)

the truth is much more complicated (F, G, C, Am)
what you know and what you do (F, G)
sill separated (C, Am)
the gulf between
action and thought
revealing nature
despite what we're taught

some people say, attitude is a choice
the positive man, just a matter of voice
But I know myself, better than you
faking a smile, you can't see through

some people say, I am what I think
It all can be fixed, by seeing a shrink
But I know myself, better than this
delusions of freedom, now that's the abyss
