

191-1000
I like driving

I like driving
Don't care where i go
Western kansas all alone
No children in tow
Up and down the mountainside
In the rain and snow
100,000 miles
Nothing much to show

I like driving
Blaring judybats
Cover the odometer
No need to keep stats
Meandering through badlands
Tracing desert flat
Another drive through coffee
Avoiding all the brats

I like driving
Sunrise on the plains
South dakota thunderstorms
Distant diesel trains
Tylenol and caffeine
To ease old body's pains
The longer i am on the road
The more my sadness wanes

I like driving
It's where i want to die
Pull a thelma and louise
For gods sake do not cry
At least i didn't bite the dust
Learning how to fly
It's the lonesome oklahoma road
The Truly gets me high
