I shall take you there

Trust me

Hold me

I will set your heart free

You and i can finally be

Just be

And i shall take you there

I shall take you there

To a place without a care

To a love so rich and fair

I shall take you there

See me

See me

I will light a fire deep

In my arms your soul i'll keep

Light, and love

And i shall take you there

I shall take you there

To a place where joy abounds

To a time when joy astounds

I shall take you there

I shall take you there
