

730-1000

I so so don't wanna go go

I so so dont wanna go go
Back to the ice and snow snow
Back where that chilly wind will blow
Back to where it's 20 degrees below
So so please
Don't make me go go

I so so don't wanna go go
Back to the darkest kind of night
Where the only color seen is white
Where the wind always has a stinging bite
So so please
Don't make me go go

I so so don't wanna go go
Back to a place that's lost its charm
Where on every corner sits a farm
And even in summer i cannot get warm
So so please
Don't make me go go

I am so done
I need the sun
Someday i'll run
But just for show
Back east
I wil go go
