I took a short vacation

I took a short vacation
Pointed my car west
The open road and tony rice
That's when i feel my best
I can work myself to death
Don't need a ton of rest
Mostly 'cause i'm distant
And emotionally repressed

I took a short vacation
The reefer helped a ton
My best days are spent spaced out
My face turned to the sun
Aroused and detached from my heart
Is where i have my fun
I wish i weren't so distant
Deep connection i do shun

I took a short vacation
And i switched to on demand
Caring deeply for another
Is something i can't stand
I'm happy to live on the surface
To lend a helping hand
But comatose the the tv on
Is for oh so grand

I took a short vacation
What i saw was really sad
I go toward disconnection
It's so hard for me to dad
I disappear like Kerouac
Force myself to not feel bad
This solitary nature
Ive embraced since t'was a lad

Will there come a day when i will feel with all my heart
Where i will not want to run, and crave to be apart
Or will i live inside my head, feelings just an aberration
And once again pressed by the world i'll take a short vacation
