

81-1000
I'm on my way

David Byrne said we're on the road to nowhere
And I partially agree
When all is finally said and done
There is futility
We work our fingers to the knob
Just to make ends meet
An honest day for beans and rice
While others lie and cheat
But this song's not about the fact
That life can be a bitch
Yes i'm on the road to nowhere
And the journey makes me rich

And so I'm on my way
Where i'll end up i cannot say
The road to nowhere is just fine
I'll just let my lovelight shine
