In a word

In a word, no
I refuse to go
Yes it would be kind
yes you're in a bind
But i intend to flee
From abject misery
Even if i went
My body you'd be lent
my mind ne'er in tow
Thus in a word, no

In a word fine
Drag me along cryin'
My smile will not hide
A desire to chide
A family straight from hell
A home like death does smell
Your favor i am buyin'
In a word, fine

In a word, yes
My life's already a mess
Why not make it worse
I swear to you i'm cursed
And you don't really care
How in the end i fare
My apathy confess
In a word, yes

In a word, goodbye
I'm over being shy
I'm running for my life
Someday i'll find a wife
Who loves and judges not
No battles to be fought
On hatreds wing i fly
In a word goodbye

One word is all i need to make my feelings known
Yet sometimes that very word can become overblown
My middle name is reticence my title silent dan
One word will be the last you hear about my escape plan
