

99-1000
In the purple

When I'm in the purple
I'm driving in my car
Notrees is my favorite town
The horizon stretches far
The atmosphere is pregnant
Electric and alive
The distant thunder rumbles
I hope that i survive

When i'm in the purple
Anticipation smacks
Another flash of lightning
And the eery whiplike cracks
The radio is blaring
Warnings to stay clear
I point my nose into the storm
Defy my hidden fear

When i'm in the purple
That's when i'm most at peace
All around the maelstrom
Avoiding the police
For me the cloud's retreating
Signals a return to the mundane
It's when i'm in the purple
That i feel most sane
