

411-1000
Information

I used to dial 411 to answer every query
Sometimes the operator would sound a little leary
And back then she would refer to me as sweetie pie and eary
Sometimes for those good ole days i get a little teary eyed

No one dials information anymore you know
In fact the telephone will soon the hand out with the dodo
I guess my job at 54 is just to go with the flow
I miss the operator and i call her even though
She doesn't answer anymore

There is no way to get in touch with his marie
You see
It's all a dream we dream
