

931-1000
Jane fixed a car

Watch her go
She's a star
Watch her go
Jane fixed a car
Jane fixed a car
With her two hands
And off we rolled
Strike up the band
She popped the hood
Took off the cover
Pushed aside
Her lame ass brother
She pushed and pulled
With pliers plied
Reset the engine
The car had died
And behold and low
The car was set
We all owe jane
Quite a debt
And off we rolled
To come back home
And another day
Im sure we'll roam
And know that if
The car breaks down
Out in the hills
Or perhaps downtown
It matters not
How near or far
For jane is here
Jane fixed a car
