

JUST BEFORE YOU

just before you (D, C)
in the warm sunshine (G)
just before you
on a mountainside
the way i was
and the life i left behind
it was all i knew
just before you
just before you
love was all around
in the rustling winds
in the storms i found
the way i was
so carefree
it was all i knew
just before you
there was a time when i was
ya i thought i was
there was a place when i was
ya i knew i was
the way i was
carved in stone
it was who i was
just before you
