Let it fall

Let it fall
Empire and all
Civilization
Mechanization

Let it fall
Tear down the wall
The faster we go
The more likely to blow

Let it fall
And let's get real small
Your neighbor and you
So strong yet so few

Let it fall
And soon standing tall
Love can prevail
We succeed when we fail

So let it fall
Never forestall
We'll all be ok
We'll live day to to day
And for you i will pray
If someday

It falls
