Lets talk

Lets talk
All i have is time
I'll brew the coffee black
You can bring the wine
We can while away the hours
I love to hear you opine
Lets talk

Lets talk
I love to hear your voice
Politics, maybe even love
You can make the choice
A moment in your presence
Is enough for me to rejoice
Lets talk

Lets talk
There is no time to waste
Memories we create now
Can never be erased
I simply want to see you smile
By your heart be graced
Lets talk

Lets talk
I truly love you so
This love is not possessive
I can surely let you go
And forever i will hold you dear
And this i hope you know
So lets talk

Lats talk about all the things we should, We could
And we would, maybe we would, so lets talk
