The meaning of the words

We dont always understand
The meaning of the words
We misconstrue
We think we do
But words are a ruse
A silent fuse
For all of this talking
This blather and prattle
Does nothing to keep us
Out of the battle
For truth
And that truth
Or reality
Is far beyond anything
We can see
We try to explain
We try to describe
But the meaning of the words
Is different for all
And The more we discuss
The further we fall
So
Act
Do
Be
And don't rely on the words that you speak
For the meaning is hidden
And understanding is weak
