

MIDNIGHT RAIN

really slowly and minimal guitar

as fate would have it (Em)
over cowboy coffee and midnight rain (G)
we decided to leave together (Em)
even though we knew it would end in pain (G)
you needed to roam (Em)
i needed to stay the same (C, D, Em)
in the midnight rain, in the midnight rain (G)

as youth would have it
summer sweat and passions flame
we danced together
we knew soon that our love would wane
you had to go
i had to remain
in the midnight rain, in the midnight rain

some say rain, will make you clean (C, D, G --->Em)
wash away the sorrow and the shame
but for me, when i close my eyes at night (C, D...Bm, C)
i still feel the sear of the pain...in the midnight rain (Am, D...G)

as time would have it
ignoring the heartache yet again
we soared together
over quite familiar terrain
i wept alone
you turned away and boarded that plane
in the midnight rain...
