

614-1000
More than anything else

More than anything else
I wish to have you back
It's not because my life without you
Is forever lacking
Tracking backward
I see a path for me that still somehow makes sense
Just one journey from blessed innocence
To who i am today
But still i need to say
That more than anything else
I wish to have you back
So many long to hear you voice
And What if god gave me a choice
I could cease to be
And in my place you'd still be here
For me the choice is very clear
While i hold my life so dear
I've had a good good ride
At times my heart has opened wide
I've loved and i have fallen down
But if i could trade with you
You who left us precious soon
You barely a life at noon
I'd say yes
I'd say yes
