On your birthday

What i will give you
Is more precious than gold
It nevers outdated
It never grows old
It's dance is eternal
and lives intertwine
My dear i present you
The gift of time
Each moment together
A lifetime of love
Eternal and perfect
As if from above
Some god smiled peaceful
And blessed with this rhyme
Each breath that i hold you
Each moment in time
So darling my darling
There are no diamond rings
I cannot delight you
With all earthly things
But in the air listen
To the distant chime
My baby i give you
The gift of time
Walk in the rain
Your hand in mine
Each raindrop so holy
And the gift of time
And so on your birthday
I offer my heart
And prayers we ne'er
Find ourselves apart
For love is forever
And our love sublime
My love i present you
The gift of time
