Only you and i

Only you and i will know
It's our secret
Its our pact
Only you and i will know
That neither of us
Is intact
We play the game so well
We make it seem
We live the dream
But soon the tolling bell
Will alert all
To our fall
Only you and i can see
The truth behind
The graying blind
Only you and i can see
That being frail
We hide our tail
Of regret and remore
And of course
In silence
Only you and i
Only you and i
alone
