Proven wrong and happy for it

Ive been proven wrong again and again
And i'm always happy for it
If i sound like i know my shit
Please just ignore it
I can weave quite a tale
Against the system i may rail
And so many stories will regale
But the name of this song
Is how many times ive been proven wrong
Wrong about love
And about the heavens up above
Wrong about being a dad
It ain't no popularity fad
Wrong about teaching
It's just another word for preaching
Kids are smarter than us all
They should sit back and watch us fall
From grace
Right on my face
And all along
All along
Ive been proven wrong

Thats all for now
