Rise up

Don't get me wrong
I know there is pain
People are hurting
It's a common refrain
And I'm hearing so many
Calling for change
And I don't disagree
I don't disagree

But what does it mean
When those suffering so dear
Rise up and destroy
All those they fear
And killing their brothers
Do not shed a tear
And I must disagree
I cannot agree

Rise up
Fight back
Take power
Rule the world
Become the one
That you disdain
That is history's
Common refrain

Don't you know
This is how it goes
We become what we despise
We become what we despise
