Say the same

You said what
I can't say the same
I refuse to assign blame
Doing so seems such a game

You said what
I can't believe it's so
Actually i can you know
Life for you is just a show

You said what
Seems to me you've lost your shit
Had another little hissy fit
Trouble is so many bit

You said what
now that is beyond the pale
You're a chief no one can hail
I hope for all our sakes you fail

You said what
You really are a tool
Trouble is we play the fool
While power makes you feel so cool

You said what
What?
Nothing surprises me anymore
