

## So Little Time

I often hear the people say (Am, C, Dm)  
so little time in every day  
too many puzzles we must solve  
ne'er the minutes to resolve

To them I retort with a smirk  
so little play and so much work  
and even if the clock stood still  
every moment toil would fill

I often hear the people moan  
too little time their skills to hone  
with 36 they would succeed  
in every task and every deed

To them I respond with a glare  
a thousand hours still wouldn't fare  
it's not the moments short supply  
to blame when victory is nigh

so little time (F)  
is still too much for me (Am)  
for you perhaps a life sublime (F)  
someday I'll learn to simply be (Em)  
so little time (F)  
a desperate cry i think (Am)  
wake up right now my friends (F)  
don't ever ever blink (G, Am)
