

960-1000  
So many changes

Think about it  
When are things not changing  
When are things staying the same  
Someone once said  
The only constant in the universe is change  
Is that bad  
And what is change  
Another person said  
The more things change  
The more they stay the same  
So again i ask  
What is change  
To be honest  
I don't know  
I just know that everyday feels different  
Everyday sounds unique  
And everyday  
I love  
Someone once said  
Time may change me  
But i can't change time
