

667-1000
Stand on a chair

If you stand on a chair
You still can't touch the sky
Stretch as you may
Do you still wonder why
Do you think that a little extra oomph will get you there
Do you know that most of the people do not care
But i cracked the code
I know how to touch a distant star
I figured it out
And you needn't travel all that far
Nor stand upon a chair
Or fly away on a jet plane
It's really very simple
Please don't think i am insane
Please don't think me mad
You don't need a chair
Or a plane
Just look up
Look up
And
breathe
