

41-1000
take care

take care
fear not
live joyous
live hot
head up
eyes ahead
time's brief
wise one said
take care
don't trust
tread lightly
deference must
head down
don't slip
vigilance
tight grip

listen not to others
uncover your own way
some try to control you
absorb not what they say
don't forget that you
are not beholden to their fears
you are not the keeper
of their smiles or their tears

take care
reckless child
if you love me
you won't be wild
docile creature
that's my hope
i don't know
if i can cope
take care
i implore
your father's terror
please ignore
live joyous
live hot
reject the caution
i have taught
