That doesn't stop

When we love someone
And when that someone's no longer there
When we search our hearts
And realize how much we care
All that love we feel
Obscured by the despair

But the love
That doesn't stop
That doesn't stop
It goes on
And on
That doesn't stop

When we pick up the phone
But dialing we fall down
We want to scream
will some relief be found
And in the fog
We aimless wander through the town

Desperation hurts
Confused me toss and turn
Gnawing deep
In our bellies feel it burn
As our hope seems to wane
For something we still yearn
