That's good news

My anxiety has lifted
Things feel easy and secure
I no longer pine and worry
To the doctor i defer
He provides me with a prescription
The pills leave me feeling calm
I feel absolutely nothing
I don't have a qualm

Well hey hey That's the good news
Zombie like it's time to snooze
Another pill i can't refuse
Hey hey hey good news

My good friend from my childhood
Recently fell off a cliff
They found his body in the ocean
Like and tree trunk set adrift
At the funeral i marveled
All the people keened and wept
I felt absolutely nothing
It was as if if i'd slept

I'm going for a walk now
The autumn leaves afire
I remember seeing them
When my heart sang like a choir
But now the canvass on the hill
Leaves me flat and cold
I feel absolutely nothing
This is good i'm told
