The fate of us all

The fate of us all
Huaminites lot
Is this incarnation
all we've got?
why not be born
Again and again
Not live in this skin
Like immutable men
Uncover a Practice
Become something new
Turn the reds in the sunrise
To blue
Dive through the wormhole
Ready to be
Whatever person
Emerges and free
From all the chains
Of that old self
A new reality
A new mental health
You see
The fate of us all
Is not really fate
Pray and you'll see
It's never too late
