The fiery ones

The fiery ones  
Make me smile  
They don't back down when bullied about  
They know they're loved, they have no doubt  
And when it's time, they stand and shout  
The fiery ones  
The fiery ones  
change the world  
They rise up and justice fight  
They stand up for what is right  
They're always moving toward the light  
The fiery ones  
The fiery ones  
Their laugh comes from a joyful place  
They walk through the world with such grace  
They never run, they seem to face  
Everything  
With fire in their eyes  
With love in their hearts  
With compassion in their souls  
The fiery ones
