To be envied

To be envied
Now there's a thing
To have jagger
Wish that he could sing
Just like me
Just like do
To be envied
By you by you by you

To be envied
Now that would be a joy
Admired for no good reason
By every girls and boy
Listen to them cheer
Oh they they love me true
To be envied
By you by you by you

To be envied
For nothing really great
At least im not the object
Of everybody's hate
And though im rather beaten down
I'll appear like shiny new
Just to be envied
By you by you by you

Envy me
Please please
Envy me
Please please
