

828-1000

Unified

Unified

Adults lied

Said in us you should confide

But they steered us off a cliff

Left us nowhere and adrift

And when we fight back, they seem aghast

But simply look at all that's past

And all the classroom pocked with holes

From bullets adults bought and sold

And so

We're unified

Eyes open wide

Too many of us have already died

So many tears we have already cried

And when we tell them we're on our own

They tell us watch our youthful tone

They say they've tried, leaders bemoan

And yet see my friend is in a grave

And you still somehow think you will save

Me

And so

We're unified

Against your greed

And perhaps someday children won't bleed

Because their parents will finally heed

The word

Get out of the way now

Get out of the way now

For

We're unified
