

211-1000  
Vapid to the core

September in the rain  
A title so cliché  
Good thing Mr. Hamilton  
Can still really play  
But why choose titles  
That are vapid to the core  
It kinda shows deep down  
Ole scott's a total bore

I can listen to miles  
Or thelonius or doc  
I can drive to Mingus Ah Um  
Pretty much around the clock  
But the titles of their compositions  
another meaningless decree  
September in the rain?  
Are you fucking kidding me?

The same is true of tony rice  
Whose legend is deserved  
His chops on manzanita  
Should forever be preserved  
But half his songs are about trains  
And he's never ridden one  
I gotta tell you tony  
Those songs are pretty dumb

Now here's a thought i have this mornin  
And it may cause you pain  
But what if ole scott hamilton  
Took September in the rain  
And instead of this useless name  
He called the song shitstorm  
Now that would raise some eyebrows  
That wouldn't be the norm

Or what if every he song he wrote  
Was a numbered hateful ode  
The one's called I hate Trump #36  
I like to play it on the road  
And my upcoming album is called trump like to screw sheep  
Now there's an album i would buy  
In happiness i'd weep
