

442-1000  
We became Americans

When did you become an American  
Is that a question you ever consider  
For me it's when i came to believe  
That America is for sale to the highest bidder

Why do i say this  
Why do i care  
What do i mean  
It all seems so unfair

Yes, i agree  
No we're not free  
That's when i decreed  
That i became an American

For that is what unites us all  
That is what is so very unhealthy  
That America is not the land of the free  
But simply the land of the wealthy

When did i become an american  
When i realized i'm just like all of you  
All of us  
All of us  
Just trying to get by
