

35-1000
we were young

we were young, you said
here's what I heard
I don't want to be with you
all the time
it's no crime
To yearn for something
I think exists
Beyond your kiss

I don't love you quite the way
I think I should
I thought I would
I want to feel the touch
Of other men
Brand new again

That's not what you said
but that's what I heard
In your defense
ne'er said a word
And in the end
The more I clung
You said again
that we were young
we were young
