

788-1000
We're past that

Do we really need to go there
Isn't that understood
Do we really need to hash that out
Let me tell you i have no doubt
That we're past that
That shit is old hat
That shit ain't where it's at
Anymore
We're past that

Do we actually have to cover that ground again
A decade ago is when i said when
We're past that
We're past that

Just look at me
And look at you
I wanted to be free
You wanted to not feel blue
No reason to fight
Not tonight
Not ever

And we're past that
